

Geomar C-130 DB | Air Fog Horn

Product Description

Geomar C-130 DB is an air horn ruggedly constructed to withstand the most severe sea environment using the best seawater, non-corrosive materials. It has a heating thermostatically controlled for navigation in polar areas.

Application

Suitable for vessels with lengths between 20 and 75 meters

Design Features

Frequency and sound intensity:	According to IMO 1972 regulations
Audible range:	1 mile
Frequency:	260 cps
Operation:	Push button for electric remote operation and manual operation by means of a pull rope. Wing push buttons optional
Automatic generation:	Of sound signals by the signal controller Audiotronic I.
Best seawater, non-corrosive materials:	Brass and stainless steel
Air horn:	With working pressure between 7 and 40 Kg /cm ²
Air consumption:	10 l/sec
Diaphragm diameter:	75 mm
Hose diameter:	16 mm
Heating:	24V, 220V, 200W
Voltage:	24V, 220V
Weight:	15 kg
